

Hi, my name is Michelle and I am the new Corporate Parenting Officer for Children and Young People in care. I have worked with children and young people for many years which is always such an honour and a privilege. Every day is different, I love being able to support children and young people to achieve, watching them grow into confident adults who understand their rights and is able to make decisions to influence change.

My first few weeks in Wolverhampton has been fantastic, I have been welcomed into a lovely team who are passionate about supporting Children and young people, so am really excited about the future, working with my new team and partners to raise aspirations of our young people.

So, what do I do in my spare time?

I am mother and grandmother. I love to have fun, you will always see me smiling and laughing. I like to listen to music it lifts my mood. I exercise daily to help manage my health and well-being this includes running, spinning, Thai box, strength training (when the gyms are open) and long walks. I once braved running through freezing water during a 10k race at Baggeridge County Park, cold but fun 😊

I am so looking forward to getting to know our children and young people whilst building positive networks across the service with partner agencies, to work together so our children and young people have the best opportunities available.
